

## Blueberries\* Price: \$10.00 each

**Premier:** Mid-season, large firm berries, very good flavor, and berries store well. Bright green foliage makes it good for ornamental use.

**Tifblue:** Mid to late-season, large, firm berries, light blue in color and quite flavorful. Popular for its appearance and productivity.

**Powder Blue:** Mid-season, darker blue berries, sweet flavor, resistant to cracking.

**Climax:** Early season, ripens in May-early June, Small-medium size berries. Good color and flavor.

**Onslow:** Mid to late-season. Vigorous, semi-upright fruit. Self-pollinating.

*\*please be aware that you will need more than one blueberry plant for pollination for all varieties other than Onslow*

## Blackberries Price: \$8.00 each

**Ouachita:** Sweet, cone-shaped large berry. Ripens late (mid-June). High yielding. Excellent Flavor.

**Apache:** Large size fruit, excellent quality, ripens late (mid-June). Cold hearty and high yielding.

**Von:** Large uniform fruit, great sweet flavor with small seeds. Excellent quality. Mid-late season. First thornless blackberry, just released from NC State.

## Muscadines Price: \$10.00 each

(Potted in 1-gallon pots)

**Ison:** Black self fertile. Excellent size and production. Great for preserves and wine (19% sugar).

**Scuppernong:** Bronze, female variety. Will need a pollinator. Medium size fruit. Ripens mid season. Vigorous and cold hardy (17% sugar).

## Raspberries Price: \$8.00 each

**Caroline Red:** New! Excellent flavor. Produces heavy crops of large raspberries. Ripens June and September. Very vigorous and tolerant of root rot. Self pollinating.

**Heritage:** Most popular variety. Dark red berries. Large crops of large sweet berries. Ripens July-Sept.

## Asparagus Price: \$14.00 each

**Mary Washington:** New! Easily grown, produces large and tender shoots. Stalks are succulent and dark green tinged with purple. Sold in bundles of 10.

## Strawberries Price: \$9.00 for 25

**Earliglow:** Early-season. Medium berry. Excellent for fresh eating and freezing due to its sweet berries and uniform flavor. Recommended for beginners.

**Cavendish:** long harvest season from early-mid to late season, Excellent flavor, large attractive fruit, high yielding. Cold hardy and good quality fruit.

## Rutherford County 4-H

4-H is an educational program for both boys and girls, ages 5-18. Exciting club and events support the "learning by doing" concept of 4-H.

The four H's stand for Head, Heart, Hands, and Health. Subject matter and life skills are learned by the 4-H'ers through projects and activities. Subjects range from animals to canning, electricity, photography, and more. For more information about 4-H in Rutherford County, contact the NC Cooperative Extension Center at 828-287-6010
